🎓 Education Background

The Chinese University of Hong Kong

August 2025 - July 2029 (Expected)

Doctor of Philosophy in Information Engineering (Multimedia Laboratory)

Hong Kong SAR, China

- › Funded by the Hong Kong PhD Fellowship Scheme
- › Research Interests: LLM-based Agents, Multi-agent Systems, and Agentic RL

Shanghai Jiao Tong University

September 2021 - June 2025

Bachelor of Engineering in Artificial Intelligence (Honor Class)

Shanghai, China

- › GPA 95.44/100, Rank 1/94
- › A+ Courses: Mathematical Analysis, Linear Algebra, Algorithm Design, Deep Learning, and 34 others

🏆 Selected Honors

Hong Kong PhD Fellowship

April 2025

- › Attracting top-tier students from all over the world to pursue their PhD studies in Hong Kong

Outstanding Graduate in Shanghai

June 2025

- › Awarded to top 5% undergraduate students graduating from universities across Shanghai

National Scholarship (Three Times)

December 2022, 2023, 2024

- › Awarded to top 0.2% students nationwide, funded by the Chinese Ministry of Education

First-Class Academic Excellence Scholarship (Three Times)

December 2022, 2023, 2024

- › Highest academic scholarship awarded to top 1% students in Shanghai Jiao Tong University

⚙️ Selected Publications

StraTA: Incentivizing Agentic RL with Strategic Trajectory Abstraction

Spring 2026

Accepted by NeurIPS 2026 (First Author)

Advisor: Prof. Wanli Ouyang & Dr. Zhenfei Yin

- › Introduce an explicit trajectory-level strategy to guide long-horizon behavior during agentic RL, improving exploration and credit assignment across the entire learning process. [\[Paper\]](#) [\[Code\]](#)

CoMAS: Co-Evolving Multi-Agent Systems via Interaction Rewards

Fall 2025

Accepted by ICLR 2026 (First Author)

Advisor: Prof. Wanli Ouyang & Dr. Zhenfei Yin

- › Propose a novel framework that enables multiple agents to self-improve autonomously by learning from intrinsic reward signals from inter-agent interactions without external supervision. [\[Paper\]](#) [\[Code\]](#)

ComfyBench: Benchmarking Agents for Designing Collaborative AI Systems

Summer 2024

Accepted by CVPR 2025 (First Author)

Advisor: Prof. Wanli Ouyang & Dr. Lei Bai

- › Build a benchmark for LLM-based agents to autonomously design collaborative AI systems in ComfyUI, along with a well-performing multi-agent framework to solve the tasks. [\[Paper\]](#) [\[Code\]](#)

💼 Internship Experience

Shanghai Artificial Intelligence Laboratory

May 2024 - May 2026

Trainee Researcher, AI for Science Group

Shanghai, China

- › Research on the topics of LLM-based Agents, Multi-agent Systems, and Agentic RL under the supervision of Prof. Wanli Ouyang and Dr. Lei Bai, producing multiple publications at top-tier conferences.
